## STEP 1

### Tracing:

- Trace all the hexagonal shapes of the border with black pigma micron pen using a ruler.
- With a white pencil trace the tiny butterflies within the hexagonal shapes of the border and the small stars of the swirl according to the pattern (designs included on Parchment Lace™ Grid No.63).

## STEP 2

### Perforating (Shallow):

- With a semi-circle, semi-square, five in a circle, and star-point perforating tool, perforate according to the patterns.

## STEP 3

### Embossing:

- With a 0.5mm ball embossing tool, emboss the tiny dots within the 5 in a circle and semi-square perforating patterns (image 1&2). Then with the same embossing tool, emboss the lines in the centre of the semi-circle patterns (image 2).
- Now emboss the tiny butterflies within the hexagonal shapes of the border using the 0.5mm ball embossing tool and Parchment Lace™ Grid No.63.
- With the 0.5mm, 1mm, and 2mm ball embossing tools emboss the star-point perforations (image 3).
- Attach the parchment to the Parchment Lace™ Grid No.63 aligning with the star swirl. Emboss the swirl with the 0.5mm and 1mm ball embossing tools (the tiny stars which were traced with white pencil). Remove and reattach to the grid on the "Believe" text. Emboss with the 0.5mm ball embossing tool. With the embossing wheel create some curved lines on the background (See the picture).
